New Product – Torx Screws in Titanium

In our website www.specialmetalparts.com click on “News” to find the available sizes.

Application

Titanium is a lightweight metal with excellent corrosion resistance. It is six times stronger than aluminium and has better corrosion resistance against ocean water than stainless steel and aluminium. It is environmental friendly and biocompatible.

It is used in the aerospace industry, automotive, motors and bicycles. Also in the oil, chemical and water treatment industries. Moreover it is used in the medical world (prothesis), as ornaments (piercings) or golfclubs, just to mention a few.

Advantages Titanium:

Price Titanium November 2010
